Name of Service, Program, Project or Issue: <b>Enterprise Security Policy</b>	
Key Points (discussion):  <b>The Information Security Managers Group (ISMG) is going to work to establish minimum security requirements from an enterprise perspective that will establish the baseline security policy for the State of Montana. ISMG will be using the common controls from the National Institute of Standards and Technology (NIST) security standards developed in its Special Publications document 800-53 Rev4 – Security and Privacy Controls for Federal Information Systems and Organizations. The ISMG will work as a team to agree upon these minimum controls and needs all agencies to participate. Work will begin after the April ISMG meeting. All members will be invited to working sessions.</b>	
Impact:  <b>These minimum requirements will establish the baseline security policy for all entities using the state network and data centers.</b>	
Key Dates:  <b>April 18, 2013 – next ISMG meeting</b>
